Main Requirements to be a Computer

1. Electronic
2. Take Input (10+30)
3. Data Process (brain work)
4. Give Output (40)
5. Storage (save)

What is COMPUTER

A Computer is an electronic device which takes input data, process it, gives output, and can store data.

Example

Desktop Computer

Laptop Computer

Smartphone

Smart Watch

Smart Board

Traffic light

ATM Machine

Tablet

Full Form of Computer

C = Common

O = Operating

M = Machine

P = Particularly

U = Used to

T= Technology / Trade

E = Education

R = Research

Main parts Of Computer OR Desktop Computer

Monitor
